* The European Parliament and European Commission's registers for external organisations are in a period of transition. A new joint register, covering both institutions, has been implemented with organisations given a year to register on the new system. We encourage all external organisations to join the new register as soon as possible.

† Some regional groups, whom Diana often visits on her own initiative, will not be on the Transparency Register as they rarely, if ever, work in Brussels; likewise those with diplomatic status, because they are not required to sign.
